

EARLY YEARS EDUCATION AT OUR LADY OF GRACE SCHOOL, NORTH BEACH.

A child's growth during 0 – 8 years is acknowledged as a period of rapid brain development essential for growth and learning.

Let Our Lady of Grace School partner with you in contemporary and holistic Early Years Education set in an aesthetically beautiful environment. Our holistic educational program nurtures the spiritual, physical, cognitive, linguistic, creative, social and emotional growth of each child.

Our Lady of Grace School's strong history with the Sisters of The Holy Family of Nazareth is expressed in our commitment to supporting and loving families.

Your family is recognised as the first and most influential educator of your child and is a valued partner in their education and care.

Our Lady of Grace specialist staff will support your child's individual growth. This involves a seamless blend of focused and intentional teaching within a play-based environment. Through play children can explore, imagine, create, negotiate, investigate and come to understand how they fit socially in this world.

Our Early Years philosophy is one where each child's strengths are identified and each is treated as a competent and capable learner. Our staff are caring and creative educators who model Catholic values and attitudes in their daily interactions with children and families.

Our Early Years Program offers a range of opportunities for you to join our community. I invite you to meet with me to tour our facilities and discuss how we can work with you in the all important education of your child.
